## INSURANCE OFFICES

**Highly Important to Farmers.**

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,

Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, but your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY by TAKING FARMS ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss,* though doing a large and prosperous business, which we believe to be without a parallel in the history of Insurance.

The best of references given as to the responsibility of the Company.

FIRE INSURANCE COMPANY.

Office in Martin's Block, Milwaukee.

Capital over $165,000—in Cash and Premium Notes.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

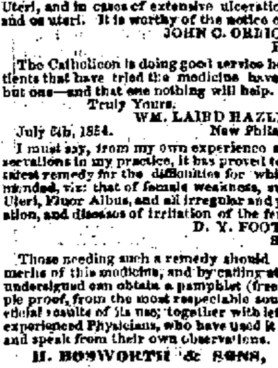
**DR. J. B. MARCHISI'S**

CELEBRATED CATHOLICON,

*For the Relief and Cure of Suffering Females.*



IT STANDS PREEMINENT for its curative powers in all the diseases for which it is recommended usually called

*Female Complaints.*

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites;—CHRONIC INFLAMATION, AND ULCERATION OF THE WOMB; INCIDENTAL HEMORRHAGE, or Flooding; PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c, with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a better condition.

I have no hesitation in saying Dr. MARCHISI'S UTERINE CATHOLICON is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.

JOHN C. ORRICK, M. D,  
Baltimore, Md.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing will help.

Truly Yours,  
WM. LAIRD HAZLETT, M. D.,

July 5th, 1854. New Philadelphia, Ohio.

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

D. Y. FOOTE, M. D.,  
Syracuse, N. Y.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

## INSURANCE OFFICES

**Highly Important to Farmers.**

The only Exclusive Farmers' Insurance Company in the West.

**THE MADISON MUTUAL,**
Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, but your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected positively by LAW.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

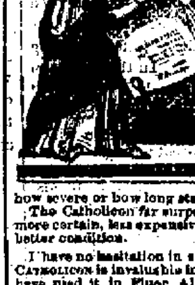
**DR. J. B. MARCHISI'S**
**CELEBRATED CATHOLICON,**
*For the Relief and Cure of Suffering Females.*



IT STANDS PREeminent for its curative powers in all the diseases for which it is recommended usually called *Female Complaints.* Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites;—CHRONIC INFLAMATION, AND ULCERATION OF THE WOMB; INCIDENTAL HEMORRHAGE, OR Flooding; PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c, with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a better condition.

I have no hesitation in saying. Dr. MARCHISI'S UTERINE CATHOLICON is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.
JOHN C. ORRICK, M. D,
Baltimore, Md.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing will help.
Truly Yours,
WM. LAIRD HAZLETT, M. D.,
July 5th, 1854. New Philadelphia, Ohio.

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.
D. Y. FOOTE, M. D.,

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

### New Railroad Arrangements.

The new arrangements which the Railroad Companies have agreed upon at their late meeting in New York are published, though not formally by the Companies

They propose to discontinue and discountenance the use of runners and solicitors for passengers

No free passes are to be given to owners of freight, and no return passes to owners or drivers of cattle.

No general passes are to be issued, after the 1st of January, except to the President, Superintendent, principal ticket passers and freight agents, and Lost Baggage masters of connecting roads

Not over 80 lbs of baggage allowed to one passenger

Emigrant passenger fares are fixed at $11 from Boston or New York to Chicago and $2 50 per cwt of baggage over 80 lbs each passenger To Cincinnati $10

The roads that send the emigrants forward receive ten per cent out of receipts for extra expenses, and five elevenths of the total, after deducting the ten per cent

For shorter or longer distances the emigrant fare will be in the same proportion

After January 1st, no tickets for emigrant passenge s will be received by any of the roads, except those regularly issued from the offices of the Companies

First Class Passenger Fares up o either of the four great routes to the West, have been established as follows

NEW YORK TO

| | |

| Sandusky | $14 65 |
| Cleveland | 13 00 |
| Detroit | 15 00 |

NEW YORK OR BOSTON TO

| Louisville via Indianapolis | 1 82 | 1 40 | 1 21 |

Time required to carry freight from Boston or New York to Lake Erie, six days Cleveland, eight days, Detroit, nine days Cincinnati and Indianapolis, ten days, Chicago twelve days

We have seen no confirmation of the report that, besides the raising of fares and general discontinuance of accommodations hitherto furnished to the public, the rates of speed on the express trains are also to be much diminished though as the companies have entered into a general combination, and have matters all their own way, such an arrangement is quite probable

Those of us who reside west of the great lakes have looked for some contingency to happen which should restore to us a line of splendid steam packets from Buffalo around through the straits of Mackinac, one of the finest trips which the world affords, and enabling persons (by the loss of but one day, under the late arrangements) to pass between Buffalo and ports on this lake in comfort, free from dust and heat, and other railroad annoyances A proportional rate of fare with that adopted by the railroads would make a handsome paying business for a first class line of steamers Cannot some of our Lake Erie steamboat operators bring the thing about? The boats are there and we believe could be so managed as to make more money than on the short routes on which they have recently run

### Grain Exports from Wisconsin

The following table exhibits the comparative amount of exports of flour, wheat barley, rye oats and corn for 1854, from all but two of our Wisconsin lake ports Manitowoc and Two Rivers, are still behind with their returns

| | Flour bbls | Wheat bus |
|---|---|---|
| Kenosha, | 8 924 | 523 872 |
| Racine | 54 404 | 409 804 |

| Ozaukee, | 10 000 | |
| Sheboygan | 2 439 | |
| | 142 790 | 331 754 |

Reducing the flour to wheat, the total exports of the above articles from the six ports named, are as follows

| | | |
|---|---|---|
| Milwaukee, | bus | 4 005,332 |
| Racine, | | 1,311 205 |
| Kenosha | | 1 219 538 |
| Sheboygan | | 292 473 |
| Ozaukee | " | 80,000 |
| Green Bay, | | 21 868 |
| Total bushels, | | 6 930,416 |

The other two ports will add but little to the above aggregate

The Bank of Albany —The State Register says this Bank, one of the oldest in the State will organize under the present N Y banking law on the first of next month and that it will at that time make a stock dividend of forty per cent

Newspaper Change at Kenosha —The Tribune and Telegraph at Kenosha have been consolidated, the proprietors considering that there is no necessity for keeping up two papers in that city both advocating the Republican cause Mr Densmore leaves the editorial chair The Daily Telegraph is to be suspended for a while

Northern Canada Railway —The Railroad from Toronto, on Lake Ontario, to Collingwood, near the head of Georgian Bay, Lake Huron is completed The route is almost an air line, and the distance, which it formerly occupied a week to travel, is now accomplished in three or four hours Our Canadian neighbors are certainly pushing ahead their Railroads and other improvements with great vigor and success.

Long a coming —The long-promised Veto Message of President Pierce on the River and Harbor Bill, has been at length sent in to Congress From the brief sketch of this document furnished by the telegraph it does not appear that it was worth waiting for

A Pleasant Reflection —In these hard times it is comfortable for us to be reminded of one of the advantages which editors possess over other people The St Louis Republican congratulates the profession on getting bored for nothing

Coal —We are informed that a large bed of coal has been discovered on the north shore of Lake Superior, easily accessible from Superior City Another inducement to the early completion of the proposed railroad from this place to Superior City

On the Red River of the North we understand, coal is found in great plenty —On a small creek, one of its tributaries a gentleman informs us that he has traced a bed of coal seven miles in length Pieces of coal and other indications of large deposits of coal are also found on St Peters River and its tributaries —[North Star, St. Croix Co.

Lead —The Wisconsin, in giving a description of a newly invented rifle, thus describes its wonderful shooting powers

A person will more fully appreciate the destructive range of this wonderful weapon when we remark that with a Minie rifle on Spring St. Bridge you can kill a person on the hill where Mr Rogers house is situated

We know perfectly well where Spring Street Bridge is, and we believe "Mr Rogers house" is somewhere between it and Waukesha —[Manitowoc Herald.

### THE NEW COUNTY BUILDINGS

### Report of the Select Committee

*To the Board of Supervisors of Milwaukee County*

Gentlemen —In obedience to our instructions from you, we have procured from Mr Mygatt, a well known architect of this city, some new plans for a Co Jail & Jailor's House attached, with general estimates of cost, and specifications which we herewith submit

But your Committee are not prepared to recommend any particular lot or lots as a site for said Jail, seperate and apart from the Court House and other Public buildings and for the reasons

That your Committee doubt the propriety and policy of thus separating said buildings, and also because, if said Jail is to be built and paid for by raising funds from Co. Bonds to be issued your committee think that before said bonds can be issued, the Board must first *designate a site* for all the Co, Buildings, that is for the Court House Jail and Offices usually connected therewith

So far as our special instructions, we might with propriety close this report here but we cannot discharge our full duty, as the standing Committee on Public Buildings without urging the attention of the board to the necessity, propriety and economy even of proceeding at once to the erection, not only of a jail, but of the County Buildings

Each and every one of the present buildings is too small and insufficient in every respect to accommodate the wants of the community The Court House if used much longer will need a heavy expenditure for repairs The County Jail is the most unhealthy, dangerous and inconvenient structure of the kind in this State and has twice been presented by the Grand Jury as such and as a great public nuisance

It has heretofore been claimed by some, that the people of this County were not able to meet the expense consequent upon the erection of such buildings as were actually needed. Now let us carefully examine this point and all what it will cost, and whether it is not the better economy to *begin* the work now than to delay.

By an Act of our Legislature passed last winter this Board is authorized to select a site for the Public Buildings, to cause the same to be built thereon, and for the purpose of raising funds, to issue County Bonds to a amount, not exceeding $100,000, payable in 20 years and bearing interest at 7 per cent per annum

From the best and most reliable information your Committee can obtain, and based upon the estimates of the architect, as to the Jail and Jailor's residence, they are confident that new fireproof buildings can be built, of modern style and dimensions to accommodate the wants of this County for the next 20 years, for $60,000 of County Bonds, and that 3½ acres of ground can be obtained, in a convenient and commodious location and worth $25,000, *for less money* than the present buildings and the two lots upon which they are built will bring at auction

The total assessed value of all the taxable property in this country for he present year is $3-706 031.14 and that too at a nominal value.

Hence to pay the annual interest on $60,000 of Co., Bonds, would require the levy of a special Court House tax of $4 200, which would be a little less than 1 1-7 mills on the dollar

At this rate, it will be seen by the following table the exact amount the city and each town would have to raise, as based upon the present assessment

| | Assessment | Tax |
|---|---|---|
| Oak Creek | $91 862 | 105 00 |
| Franklin | 03,843 | 118 25 |
| Lake, | 130,027 | 148,59 |
| Granville | 136 823 | 156,37 |
| Milwaukee, | 138,113 | 157,85 |
| Greenfield | 149 583 | 170 97 |
| Wauwatosa, | 190 275 | 217,47 |
| City of Milwaukee | 2 775,498 | 3,172,00 |
| | | $4 246 00 |

The records of your Board show that there is annually expended for extra police at the jail, repairs on buildings, extra fuel and the purchase of water for the use of the prisoners, more than 1200, which in case of new buildings, would be saved,

| | |
|---|---|
| Tow from the interest | $4200, |
| Deduct amount saved | 1200 |
| Leaving an excess over present taxes of only | $3000, |
| Of which the City would pay | $2250, |
| And the seven towns only | 750 |

Being in fact just 6-7 of one mill on the dollar, or seven shillings on the $1000 over and above the present tax, a sum which your Committee believe every tax payer is ready, able and willing to pay

And another fact should not be overlooked and that is that the value of taxable property of this county is rapidly increasing, and in a short time ½ of one mill on the dollar will be more than sufficient to pay said interest

There is not a County in the State of half our wealth population and business, but can boast of better and more convenient county buildings than those of ours, nor is there any jail in the State which has received from the Grand Jury such *peculiar* recommendations as ours

Your Committee think that it is much better *economy* to proceed at once to the erection of new county buildings, than to delay the matter until we have thrown away eight or ten thousand dollars more in repairs and useless expenditures on the old buildings,—and when the expense of a suitable site will be more than quadrupled

Your Committee also believe that the yearly rise in the value of a Block of ground, as a site, will more than equal the annual interest on said Bonds

If the Board should acquiesce in our views as to the necessity and expediency of erecting new County Buildings, then the selection of of a suitable and convenient site will become a matter of much importance, particularly to the people residing out of the City

Upon this subject, the two principal points to be considered, and which must be taken in connection are Location and expense of ground.

Your Committee can find no spot possessing these advantages equal to Block Seventy-Six (76) in the Fourth Ward

As to the Location, one glance at the map will show that it is not only about the geographical centre of the city but is about midway between the termini of all the Avenues leading into the City, and would accommodate equally well the people of the northern western and southern towns

In reference to the cost of said Block, we cannot speak definitely, but believe it will be but a trifle and that propositions in reference thereto will be made to the Board which we doubt not will prove highly satisfactory

Washington, Dec 27

The Committee of Commerce of the House of Representatives have prepared, and will soon report, a very important bill on the subject of alien paupers and criminals. Under the provisions of this bill no foreign passenger shall hereafter be admitted into a port of the United States unless he shall have the certificate of the American consul of the place from which he comes, that he has not for one year previous to his departure been an inmate of a jail or workhouse, and that he has not for four years previously, been convicted of any criminal offence except such as are designated political crimes

If any captain shall bring such persons without the required certificates he shall be liable to fine and imprisonment The vessel in which such persons arrive shall be subject to forfeiture The introduction of a bill like this will, no doubt, give rise to a violent opposition, but as the necessity of this measure is generally admitted by the American part of our population, it must ultimately become a law.

### United States Senator.

It is the duty of the coming legislature of this state to elect a senator in the place of the Hon I P Walker, whose term of office will expire the 4th of March next The Republicans have a majority on joint ballot, but the Democrats have a majority in the senate The organ of the State administration, the "Argus and Democrat," opposes any election this winter Here is what it says

"The Democratic party proper have the control of the Senate, and can if it choose, prevent the election of a senator We do not believe there is back bone enough in the members composing that majority to exercise this power, but we do believe it to be their duty and policy to do so if necessary Arbitrary though it may seem—factional as it will be denounced—yet shall spasmodic disease of the moment be allowed to become chronic through the weakness and indecision of those who have the power to prevent it? That the majority should rule is a democratic doctrine which we acknowledge, but that an accidental majority should shape the policy of our state for years to come when such an infliction can be prevented, we deny"

In the event of no election, Gov Barstow would have the power to appoint a senator for a brief period The Argus thinks there is not "back bone enough" in the senate to prevent the election—that is to say, the men who now compose the senate are not corrupt enough to violate the law and refuse to discharge a duty incumbent upon them by their oath of office

The Republican party is based upon the fundamental principles of the Government—and is destined to live in power so long as it adheres to those principles It is the only party recognizing the true doctrine of "popular sovereignty"—which doctrine would secure equal political rights to ALL the people of the State

The Republican party is no DISEASE upon the body politic, but is the personification of a sound and healthy condition It is the old Democratic party which has so long ruled the nation that has become diseased and corrupt, and become chronic" in its corruption But like a consumptive man, Hope is strong in it, and it will not believe in its doom

We trust that patriotic counsels will prevail in the legislature and that the will of the people will be honestly and fearlessly carried out. If this be done it will secure to the state a senator in congress for six years who believes that the constitution of the U S was formed to establish justice—to promote the general welfare—and to secure the blessings of *liberty*—one who believes there is natural equality in men, and who will guard their inalienable rights—one who believes that governments among men, derive their *just* powers from the consent of the governed. Such a man will be a REPUBLICAN —[Burr Oak

### What is a Minie Rifle.

Every account received from the war in the Crimea is loud in praise of the "Minie Rifle" These fire-arms in the hands of good marksmen deal certain destruction at an immense distance, and the wholesale slaughter of Russian gunners at the batteries of Sebastopol, has won for this weapon of death the soubriquet of "King of Fire Arms," So dreadful is this fatal ball that the Russian gunner goes to his station at an embrasure as to certain death

The barrel of a rifle has, running the length of its inner surface, spiral grooves or channels—hence the name of rifle which means a *rifled* or a grooved gun One object of a rifled barrel is to give greater precision to the ball, by communicating to it a rotary motion This motion it receives on its passage out of the gun provided the ball is so crowded into the barrel as to fill up partially or entirely the grooves, and the more perfectly the ball fits them into the truer its course, and the less windage there is that is the less space there is between the ball and the barrel for the strength of the powder to escape It is estimated that when the windage is only 1-20th of the calibre of the gun, one-third of the powder escapes, and of course its strength is lost

The great object therefore to be obtained, is a perfect fit to the barrel by the ball, thus to give the rotary motion, and to save the powder

A French gunsmith invented a rifle which had its breech pin project wedge shaped, about two inches into the barrel, and a few heavy blows by the rammer, drove the wedge or pin into the ball so as to fill the grooves in the barrel

The minie ball, now so famous, is an improvement upon all balls, inasmuch as it makes the powder slug or spread the ball, instead of the rammer doing that work

The ball is oblong with a conical point In its base it has a conical hollow running half or two thirds the length of the ball A cup made of sheet iron is placed in the orifice of this hollow, which at the instant of firing is driven by the powder with great force into the ball, thus spreading it open so as in its course out to perfectly slug or fill the grooved barrel This accomplishes the whole object, it saves time in ramming it destroys windage, thus economizing in powder, and makes the ball perfectly fit the barrel so as to give the ball a complete rotary motion, and certainty of direction Thus the Minie improvement—taking its name from a French officer named Minie—is a minie ball, not a minie rifle The conical shape of the bullet gives it greater weight of metal than a round one, affords less resistance, to the air and greatly increases the distance it can be thrown This shaped ball, however, has been used for a long time by sportsmen

A Paris correspondent of the New York Tribune, some months since was witness to experiments made by Major Minie himself with his ball, and saw that officer plant three balls in succession in a target the size of a man's hat at a distance of three fourths of a mile And the officer said he could do it all day long, and teach any other man to do so

It is not to be wondered at that the Russians have a horror of the French chasseurs and the minie ball

The present popularity of the rifle owes it origin to the skill of American sharp shooters bred and trained in our new settlements, and who in our Indian and other wars have shown the efficiency of the rifle ball in picking off officers, gunners and prominent objects, but its perfection, we imagine, has been accomplished in the hands of the French.—[Cleveland Herald

### What we have Eaten.

In another column we print a table of the weekly receipts of Beeves, Cows, Calves, Swine, Sheep and Lambs, as they have been reported for sale at the several market places in this City. First of Beeves Of these the total given is 169,364 averaging 3 257 per week The average number each market day (which is now on Wednesday at Bull's Head is 2 227 We estimate the Bullocks at 6 cwt each of meat in the quarters, making 101 618,400 lbs. At 9 cents a pound, this is $9,145 656 This makes the whole number average $54 a head Of Veals we have 68 594, which we estimate to average $5 each making $343, 720 The average number per week is 1,315 — We estimate the 13,131 Cows received at $35 head average, making $459 985 Average number per week, 253 Of Sheep and Lambs there have been slaughtered no less than 555 474 We count them low at an average of $5 each, which makes $2 777 495 The average number killed each week is 10 682 Averaging the meat of all at 45 lbs per head, it will give 24 996 655 lbs — The butcherings of Swine for the year amount to 252,328. We have averaged them at 140 lbs each, making 35 325 920 lbs which at 5 cents a pound, is $1,942 925,60 This makes the Hog average $7 70 each The average number per week of all animals received for slaughter is 20, 359 According to our estimate of value of the slaughtered animals of 1854 in this City we have paid the farmers the snug sum of FOURTEEN MILLIONS, SIX HUNDRED AND SIXTY NINE THOUSAND SEVEN HUNDRED AND NINETY-ONE DOLLARS, which is an average of $282 111 per week. The Beef Cattle alone will average $175 878 a week We presume none who are acquainted with the business of selling stock in this City, or those who have paid careful attention to our weekly reports of the Cattle Market will think that we have made our estimates too high. As for our carnivorous propensities, they are certainly beyond a question —[N Y, Tribune

### Destructive Fire--Three Houses Burnt.

About 4 o'clock yesterday morning fire was discovered in the frame buildings, on the West side of Market Square, First Ward and adjoining the brick block on the corner of Oneida Street The wind was blowing a gale at the time and the flames spread so rapidly that the inmates made their escape with some difficulty Considering the hour of the night and the muddy condition of the streets, the Fire Department got on the ground in good season and labored zealously and effectively to extinguish the flames Fortunately there were brick blocks with fire-proof walls on each side of the burning buildings, so that notwithstanding the wind lent wings to the flames and swept the sparks and cinders in fiery showers across the street, the progress of the conflagration was speedily stayed

The three buildings burnt were occupied by A F. Philip, as a Boarding House C F Ries as a Cap Store and H Schwarting, as a dwelling and Grocery and Liquor Store Mr Philip lost everything as did Mrs Thiesbach, who with her family occupied the upper part of Ries' store, and Mr Ries himself Several of Mr Philip's boarders also lost clothes furniture, &c. There was no insurance on any of this The two buildings belonged to Schoeder and Hilger, who were uninsured Mr. Schwarting was insured $800 in the North Western on his building and $2000 in the Knickerbocker on his stock The fire was first seen *between* the two smaller buildings and is generally supposed to have been the work of design

### Criminal Statistics--The Late County Officers.

The criminal statistics as published in yesterday's *Sentinel*, furnished by the recent jailor, exhibits the astonishing fact, that in some cities not far distant, the criminal commitments, and the number of persons committed to the State Prison for *one month* exceed those of Milwaukee for *one year* Among those who have brought the city to this state of peace and quietness are the late Sheriff, the late District Attorney, and the present Police Justice Sheriff Page in retiring from the two years efficient service which he has rendered the people of this County, carried with him to his fireside the good wishes of every lover of order and of every one not associated with crime, and if, as is claimed, the duty of a Sheriff is the protection of the community in which he is chosen, he can claim its perfect fulfilment and that he has left the community safe in their persons and their property and that each and every one can retire to his home and sleep under a feeling of security from midnight plunder and violence"

The late District Attorney Mr Butterfield served the County six years, three successive terms, and we believe, that he, too returns with the good wishes of all heaped upon him During his last term was the memorable trial of Mary Ann Wheeler for the assassination of John M W Lace, and although an acquittal took place in that case, in which the only excuse claimed was ill treatment of the prisoner—where the act was confessed, altho' not witness'd - where the punishment was foreseen and braved, and no fault found except as to *height of suspension*—where a medical hallucination undermined and overthrew reason and justice—and where, except for the brilliant talents of the prisoner's counsel, conviction must have taken place and justice been satisfied—although an acquittal was the result, the District Attorney established himself beyond doubt to be an able and eloquent prosecutor and to be ardent for conviction, only because satisfied the guilt was there

How long the Police Justice has held that office, we are unable to say, without searching the records but that he has fulfilled its duties without fear or favor, the fact of his having been elected for a number of terms without opposition is sufficient proof and the desire that the Chancellor shall long continue to occupy the Wool Sack is unanimous.

Cleaning the Streets —Just as we expected! A conflict of jurisdiction between the Street Commissioners and the Marshal prevents our streets from being cleaned The former have full power by Sec 3 of chap 7 of the Charter, and the latter has the power by Sec 25 of an ordinance passed July 6 1846 The latter is willing but cannot; the former can, but are not willing So we are left

The Marshal says that if the Common Council will give him authority to employ persons, at the expense of the city to clean the streets, it shall be done forthwith Now, gentlemen of the Common Council, is a chance for immortality

At Last —A neat card in circulation among the shipping houses yesterday informed the numerous friends of Capt. Wm H Cross that that officer on the 1st inst, struck his flag, and made himself as comfortable as could be expected for a captive. We learn that Collector White, among whose manifold duties is that of performing such ceremonies for sea-going folk, united the Captain on that day to Miss S. Republic.

Notice to Clean the Streets.—A notice calling upon all owners, agents or occupants of lots fronting on East Water street, in the Third Ward of the City of Milwaukee, to pay immediate attention to the cleaning of the sidewalks, gutters and streets before their respective lots, was posted up yesterday

A Wonderful Discovery has recently been made by Dr Curtis, of this city, in the treatment of Consumption, Asthma and all diseases of the lungs We refer to "Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup" With this new method Dr C. has restored many afflicted ones to perfect health, as an evidence of which, he has innumerable certificates Speaking of the treatment a physician remarks —It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medical properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion The Hygeana is for sale at all the druggists throughout the country —*New York Dutchman, Jan 14th*

The advantages offered by this Company are many and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what time it is their interest to insure

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible, and Life Insurance, while it in no way interferes with or undervalues these important institutions, has claims which no other system of insurance can have Human existence must on consideration, enjoy a much higher estimate than worldly property

While the representative of a family lives, (although through neglect to insure his *property*, he becomes bankrupt) he supports his family, but at his *death* dies also the means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comforts during life

If young, the annual payment will be light and if insured with profits, the policy will be constantly growing more valuable though the *premium* is not increased

Clergymen and others who have a stated and regular income, *should insure*, well knowing that at their death their families may be left destitute,

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure*

The farmer who has still a mortgage on his farm, *should insure*, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death

NEW THEORY.

Dr A L. Adams believes the proximate cause of all diseases (or as he will have it, all forms of disease,) to be a retention in the system of worn out fluids, &c., which of course should have been expelled But being retained, *excite irritation, or debilitate the system*, causing various effects The Dr says, with much assurance, that his LIVER BALSAM will expel properly and certainly from the system all impurities Therefore he declares it will cure all curable complaints if taken *judiciously* "We will try it.

### New Railroad Arrangements.

The new arrangements which the Railroad Companies have agreed upon at their late meeting in New York are published, though not formally by the Companies

They propose to discontinue and discountenance the use of runners and solicitors for passengers

No free passes are to be given to owners of freight, and no return passes to owners or drivers of cattle.

No general passes are to be issued, after the 1st of January, except to the President, Superintendent, principal ticket passage and freight agents, and Lost Baggage masters of connecting roads

Not over 80 lbs of baggage allowed to one passenger

Emigrant passenger fares are fixed at $11 from Boston or New York to Chicago and $2 50 per cwt of baggage over 80 lbs each passenger To Cincinnati $10

The roads that send the emigrants forward receive ten per cent out of receipts for extra expenses, and five elevenths of the total, after deducting the ten per cent

For shorter or longer distances the emigrant fare will be in the same proportion

After January 1st, no tickets for emigrant passengers will be received by any of the roads, except those regularly issued from the offices of the Companies

First Class Passenger Fares upon either of the four great routes to the West, have been established as follows

| NEW YORK TO | |
|---|---|
| Sandusky | $14 65 |
| Cleveland | 13 00 |
| Detroit | 15 00 |
| Chicago | 22 00 |
| Indianapolis | 20 00 |
| Cincinnati | 18 50 |
| Columbus | 16 40 |
| Shelby | 14 75 |
| Xenia | 17 75 |
| Bellefontaine | 16 50 |
| Dayton | 18 00 |
| Toledo | 16 00 |
| Louisville U S M Line | 20 50 |
| Louisville | 21 00 |

The following tariff of freights was agreed upon

| NEW YORK OR BOSTON TO | 1st Class | 2nd Class | 3d Class |
|---|---|---|---|
| Dunkirk | 97 | 72 | 55 |
| Buffalo | 97 | 72 | 58 |
| Suspension Bridge | 97 | 72 | 58 |
| Chicago | 2 00 | 1 50 | 1 20 |
| Cincinnati | 1 57 | 1-20 | 1-09 |
| Indianapolis | 1 74 | 1 20 | 1 16 |
| Lafayette | 1-82 | 1 48 | 1-21 |
| Terre Haute | 1 77 | 1 45 | 1 21 |
| Louisville via Indianapolis | 1 93 | 1 49 | 1 21 |

Time required to carry freight from Boston or New York to Lake Erie, six days Cleveland, eight days, Detroit, nine days Cincinnati and Indianapolis, ten days, Chicago twelve days

We have seen no confirmation of the report that, besides the raising of fares and general discontinuance of accommodations hitherto furnished to the public, the rates of speed on the express trains are also to be much diminished though as the companies have entered into a general combination, and have matters all their own way, such an arrangement is quite probable

Those of us who reside west of the great lakes have looked for some contingency to happen which should restore to us a line of splendid steam packets from Buffalo around through the straits of Mackinac, one of the finest trips which the world affords, and enabling persons (by the loss of but one day, under the late arrangements) to pass between Buffalo and ports on this lake in comfort, free from dust and heat, and other railroad annoyances A proportional rate of fare with that adopted by the railroads would make a handsome paying business for a first class line of steamers Cannot some of our Lake Erie steamboat operators bring the thing about? The boats are there and we believe could be so managed as to make more money than on the short routes on which they have recently run

### Grain Exports from Wisconsin

The following table exhibits the comparative amount of exports of flour, wheat barley, rye oats and corn for 1854, from all but two of our Wisconsin lake ports Manitowoc and Two Rivers, are still behind with their returns

| | Flour bbls | Wheat bus |
|---|---|---|
| Kenosha, | 8 924 | 522 872 |
| Racine | 14 404 | 409 804 |
| Milwaukee, | 155,05[illegible] | 1,052 319 |
| Ozaukee, | 10,000 | 20,000 |
| Sheboygan, | 7 605 | 216 631 |
| Green Bay, | 3 497 | 4,383 |
| | 198 531 | 3,232 009 |

| | Barley, bus | Oats bus |
|---|---|---|
| Kenosha, | 121 233 | 506 320 |
| Racine | 106 509 | 705 114 |
| Milwaukee | 323 267 | 424 487 |
| Sheboygan | 25 931 | 10,147 |
| | 577 040 | 1 646,068 |

| | Rye, bus | Corn, bus |
|---|---|---|
| Kenosha | 4,172 | 14 171 |
| Racine, | 4 000 | 18 768 |
| Milwaukee, | 131 179 | 298 325 |
| Ozaukee, | 10 000 | |
| Sheboygan | 2 439 | |
| | 142 790 | 331 754 |

Reducing the flour to wheat, the total exports of the above articles from the six ports named, are as follows

| | | |
|---|---|---|
| Milwaukee, | bus | 4 005,332 |
| Racine, | | 1,311 205 |
| Kenosha | | 1 219 538 |
| Sheboygan | | 292 473 |
| Ozaukee | " | 80,000 |
| Green Bay, | | 21 868 |
| Total bushels, | | 6 930,416 |

The other two ports will add but little to the above aggregate

The Bank of Albany —The State Register says this Bank, one of the oldest in the State will organize under the present N Y banking law on the first of next month and that it will at that time make a stock dividend of forty per cent

Newspaper Change at Kenosha —The Tribune and Telegraph at Kenosha have been consolidated, the proprietors considering that there is no necessity for keeping up two papers in that city both advocating the Republican cause Mr Densmore leaves the editorial chair The Daily Telegraph is to be suspended for a while

Northern Canada Railway —The Railroad from Toronto, on Lake Ontario, to Collingwood, near the head of Georgian Bay, Lake Huron is completed The route is almost an air line, and the distance, which it formerly occupied a week to travel, is now accomplished in three or four hours Our Canadian neighbors are certainly pushing ahead their Railroads and other improvements with great vigor and success.

[illegible] Coming —The long-promised Veto Message of President Pierce on the River and Harbor Bill, has been at length sent in to Congress From the brief sketch of this document furnished by the telegraph it does not appear that it was worth waiting for

A Pleasant Reflection —In these hard times it is comfortable for us to be reminded of one of the advantages which editors possess over other people The St Louis Republican congratulates the profession on getting bored for nothing

Coal —We are informed that a large bed of coal has been discovered on the north shore of Lake Superior, easily accessible from Superior City Another inducement to the early completion of the proposed railroad from this place to Superior City

On the Red River of the North we understand, coal is found in great plenty —On a small creek, one of its tributaries a gentleman informs us that he has traced a bed of coal seven miles in length Pieces of coal and other indications of large deposits of coal are also found on St Peters River and its tributaries —[North Star, St. Croix Co.

Lamp —The Wisconsin, in giving a description of a newly invented rifle, thus describes its wonderful shooting powers

A person will more fully appreciate the destructive range of this wonderful weapon when we remark that with a Minie rifle on Spring St. Bridge you can kill a person on the hill where Mr Rogers house is situated

We know perfectly well where Spring Street Bridge is, and we believe "Mr Rogers house" is somewhere between # and Waukesha —[Manitowoc Herald.

### THE NEW COUNTY BUILDINGS

#### Report of the Select Committee

*To the Board of Supervisors of Milwaukee County*

Gentlemen —In obedience to our instructions from you, we have procured from Mr Mygatt, a well known architect of this city, some new plans for a Co Jail & Jailor's House attached, with general estimates of cost, and specifications which we herewith submit

But your Committee are not prepared to recommend any particular lot or lots as a site for said Jail, seperate and apart from the Court House and other Public buildings and for the reasons

That your Committee doubt the propriety and policy of thus separating said buildings, and also because, if said Jail is to be built and paid for by raising funds from Co. Bonds to be issued, your committee think that before said bonds can be issued, the Board must first *designate a site* for all the Co. Buildings, that is for the Court House Jail and Offices usually connected therewith

So far as our special instructions, we might with propriety close this report here but we cannot discharge our full duty, as the standing Committee on Public Buildings without urging the attention of the board to the necessity, propriety and economy even of proceeding at once to the erection, not only of a jail, but of the County Buildings

Each and every one of the present buildings is too small and insufficient in every respect to accommodate the wants of the community The Court House if used much longer will need a heavy expenditure for repairs The County Jail is the most unhealthy, dangerous and inconvenient structure of the kind in this State and has twice been presented by the Grand Jury as such and as a great public nuisance

It has heretofore been claimed by some, that the people of this County were not able to meet the expense consequent upon the erection of such buildings as were actually needed. Now let us carefully examine this point and all what it will cost, and whether it is not the better economy to *begin* the work now than to delay.

By an Act of our Legislature passed last winter this Board is authorized to select a site for the Public Buildings, to cause the same to be built thereon, and for the purpose of raising funds, to issue County Bonds to an amount, not exceeding $100,000, payable in 20 years and bearing interest at 7 per cent per annum

From the best and most reliable information your Committee can obtain, and based upon the estimates of the architect, as to the Jail and Jailor's residence, they are confident that new fire-proof buildings can be built, of modern style and dimensions to accommodate the wants of this County for the next 30 years, for $60,000 of County Bonds, and that 3¼ acres of ground can be obtained, in a convenient and commodious location and worth $25,000, for *less money* than the present buildings and the two lots upon which they are built will bring at auction

The total assessed value of all the taxable property in this country for he present year is $3-706 031,14 and that too at a nominal value.

Hence to pay the annual interest on $60,000 of Co., Bonds, would require the levy of a special Court House tax of $4 200, which would be a little less than 1 1-7 mills on the dollar

At this rate, it will be seen by the following table the exact amount the city and each town would have to raise, as based upon the present assessment

| | Assessment | Tax |
|---|---|---|
| Oak Creek | $91 862 | 105 00 |
| Franklin | 93,843 | 118 25 |
| Lake, | 130,027 | 148,59 |
| Granville | 136 829 | 156,37 |
| Milwaukee, | 138,113 | 157,85 |
| Greenfield | 149 583 | 170 97 |
| Wauwatosa, | 190 276 | 217,47 |
| City of Milwaukee | 2 775,498 | 3,172,00 |
| | | $4 246 00 |

The records of your Board show that there is annually expended for extra police at the jail, repairs on buildings, extra fuel and the purchase of water for the use of the prisoners, more than 1200, which in case of new buildings, would be saved,

| | |
|---|---|
| Now from the interest | $4200, |
| Deduct amount saved | 1200 |
| Leaving an excess over present taxes of only | $3000, |
| Of which the City would pay | $2250, |
| And the seven towns only | 750 |

Being in fact just 6-7 of one mill on the dollar, or seven shillings on the $1000 over and above the present tax, a sum which your Committee believe every tax payer is ready, able and willing to pay

And another fact should not be overlooked and that is that the value of taxable property of this county is rapidly increasing, and in a short time ½ of one mill on the dollar will be more than sufficient to pay said interest

There is not a County in the State of half our wealth population and business, but can boast of better and more convenient county buildings than those of ours, nor is there any jail in the State which has received from the Grand Jury such *pead or* recommendations as ours

Your Committee think that it is much better economy to proceed at once to the erection of new county buildings, than to delay the matter until we have thrown away eight or ten thousand dollars more in repairs and useless expenditures on the old buildings,—and when the expense of a suitable site will be more than quadrupled

Your Committee also believe that the yearly rise in the value of a Block of ground, as a site, will more than equal the annual interest on said Bonds

If the Board should acquiesce in our views as to the necessity and expediency of erecting new County Buildings, then the selection of a suitable and convenient site will become a matter of much importance, particularly to the people residing out of the City

Upon this subject, the two principal points to be considered, and which must be taken in connection are Location and expense of ground.

Your Committee can find no spot possessing these advantages equal to Block Seventy-Six (76) in the Fourth Ward

As to the Location, one glance at the map will show that it is not only about the geographical centre of the city but is about midway between the termini of all the Avenues leading into the City, and would accommodate equally well the people of the northern western and southern towns

In reference to the cost of said Block, we cannot speak definitely, but believe it will be but a trifle and that propositions in reference thereto will be made to the Board which we doubt not will prove highly satisfactory

Washington, Dec 27

The Committee of Commerce of the House of Representatives have prepared, and will soon report, a very important bill on the subject of alien paupers and criminals. Under the provisions of this bill no foreign passenger shall hereafter be admitted into a port of the United States unless he shall have the certificate of the American consul of the place from which he comes, that he has not for one year previous to his departure been an inmate of a jail or workhouse, and that he has not for four years previously, been convicted of any criminal offence except such as are designated political crimes

At any captain shall bring such persons without the required certificates he shall be liable to fine and imprisonment The vessel in which such persons arrive shall be subject to forfeiture The introduction of a bill like this will, no doubt, give rise to a violent opposition, but as the necessity of this measure is generally admitted by the American part of our population, it must ultimately become a law.

### United States Senator.

It is the duty of the coming legislature of this state to elect a senator in the place of the Hon I P Walker, whose term of office will expire the 4th of March next The Republicans have a majority on joint ballot, but the Democrats have a majority in the senate The organ of the State administration, the "Argus and Democrat," opposes any election this winter Here is what it says

"The Democratic party proper have the control of the Senate, and can if it choose, prevent the election of a senator We do not believe there is back bone enough in the members composing that majority to exercise this power, but we do believe it to be their duty and policy to do so if necessary Arbitrary though it may seem—factional as it will be denounced—yet shall spasmodic disease of the moment be allowed to become chronic through the weakness and indecision of those who have the power to prevent it" That the majority should rule is a democratic doctrine which we acknowledge, but that an accidental majority should shape the policy of our state for years to come when such an infliction can be prevented, we deny'

In the event of no election, Gov Barstow would have the power to appoint a senator for a brief period The Argus thinks there is not 'back bone enough" in the senate to prevent the election—that is to say, the men who now compose the senate are not corrupt enough to violate the law and refuse to discharge a duty incumbent upon them by their oath of office

The Republican party is based upon the fundamental principles of the Government—and is destined to live in power so long as it adheres to those principles It is the only party recognizing the true doctrine of 'popular sovereignty"—which doctrine would secure equal political rights to ALL the people of the State

The Republican party is no DISEASE upon the body politic, but is the personification of a sound and healthy condition It is the old Democratic party which has so long ruled the nation that has become diseased and corrupt, and become chronic" in its corruption But like a consumptive man, Hope is strong in it, and it will not believe in its doom

We trust that patriotic counsels will prevail in the legislature and that the will of the people will be honestly and fearlessly carried out. If this be done it will secure to the state a senator in congress for six years who believes that the constitution of the U S was formed to establish justice—to promote the general welfare—and to secure the blessings of *liberty*—one who believes there is natural equality in men, and who will guard their inalienable rights—one who believes that governments among men, derive their *just* powers from the consent of the governed. Such a man will be a REPUBLICAN —[Burr Oak

### What is a Minie Rifle.

Every account received from the war in the Crimea is loud in praise of the ' Minie Rifle " These fire-arms in the hands of good marksmen deal certain destruction at an immense distance, and the wholesale slaughter of Russian gunners at the batteries of Sebastopol, has won for this weapon of death the soubriquet of ' King of Fire Arms," So dreadful is this fatal ball that the Russian gunner goes to his station at an embrasure as to certain death

The barrel of a rifle has, running the length of its inner surface, spiral grooves or channels—hence the name of rifle which means a *rifled* or a grooved gun One object of a rifled barrel is to give greater precision to the ball, by communicating to it a rotary motion This motion it receives on its passage out of the gun provided the ball is so crowded into the barrel as to fill up partially or entirely the grooves, and the more perfectly the ball fits them into the truer its course, and the less windage there is that is the less space there is between the ball and the barrel for the strength of the powder to escape It is estimated that when the windage is only 1-20th of the calibre of the gun, one-third of the powder escapes, and of course its strength is lost

The great object therefore to be obtained, is a perfect fit to the barrel by the ball, thus to give the rotary motion, and to save the powder

A French gunsmith invented a rifle which had its breech pin project wedge shaped, about two inches into the barrel, and a few heavy blows by the rammer, drove the wedge or pin into the ball so as to fill the grooves in the barrel

The minie ball, now so famous, is an improvement upon all balls, inasmuch as it makes the powder slug or spread the ball, instead of the rammer doing that work

The ball is oblong with a conical point In its base it has a conical hollow running half or two thirds the length of the ball A cup made of sheet iron is placed in the orifice of this hollow, which at the instant of firing is driven by the powder with great force into the ball, thus spreading it open so as in its course out to perfectly slug or fill the grooved barrel This accomplishes the whole object, it saves time in ramming it destroys windage, thus economizing in powder, and makes the ball perfectly fit the barrel so as to give the ball a complete rotary motion, and certainty of direction Thus the Minie improvement—taking its name from a French officer named Minie—is a minie ball, not a minie rifle The conical shape of the bullet gives it greater weight of metal than a round one, affords less resistance, to the air and greatly increases the distance it can be thrown This shaped ball, however, has been used for a long time by sportsmen

A Paris correspondent of the New York Tribune, some months since was witness to experiments made by Major Minie himself with his ball, and saw that officer plant three balls in succession in a target the size of a man's hat at a distance of three fourths of a mile And the officer said he could do it all day long, and teach any other man to do so

It is not to be wondered at that the Russians have a horror of the French chasseurs and the minie ball

The present popularity of the rifle owes its origin to the skill of American sharp shooters bred and trained in our new settlements, and who in our Indian and other wars have shown the efficiency of the rifle ball in picking off officers, gunners and prominent objects, but its perfection, we imagine, has been accomplished in the hands of the French.—[Cleveland Herald

### What we have Eaten.

In another column we print a table of the weekly receipts of Beeves, Cows, Calves, Swine, Sheep and Lambs, as they have been reported for sale at the several market places in this City. First of Beeves Of these the total given is 169,364 averaging 3 257 per week The average number each market day (which is now on Wednesday at Bull's Head is 2 227 We estimate the Bullocks at 6 cwt each of meat in the quarters, making 101 618,400 lbs. At 9 cents a pound, this is $9,145 656 This makes the whole number average $54 a head Of Veals we have 68 534, which we estimate to average $5 each making $343, 720 The average number per week is 1,315 – We estimate the 13,131 Cows received at $35 head average, making $459 985 Average number per week, 252 Of Sheep and Lambs there have been slaughtered no less than 555 474 We count them low at an average of $5 each, which makes $2 777 495 The average number killed each week is 10 682 Averaging the meat of all at 45 lbs per head, it will give 24 996 655 lbs – The butcherings of Swine for the year amount to 252,328. We have averaged them at 140 lbs each, making 35 325 920 lbs which at 5 cents a pound, is $1,942 925,60 This makes the Hog average $7 70 each The average number per week of all animals received for slaughter is 20, 359 According to our estimate of value of the slaughtered animals of 1854 in this City we have paid the farmers the snug sum of FOURTEEN MILLIONS, SIX HUNDRED AND SIXTY NINE THOUSAND SEVEN HUNDRED AND NINETY-ONE DOLLARS, which is an average of $282 111 per week. The Beef Cattle alone will average $17 878 a week We presume none who are acquainted with the business of selling stock in this City, or those who have paid careful attention to our weekly reports of the Cattle Market will think that we have made our estimates too high. ### Destructive Fire--Three Houses Burnt.

About 4 o'clock yesterday morning fire was discovered in the frame buildings, on the West side of Market Square, First Ward and adjoining the brick block on the corner of Oneida Street The wind was blowing a gale at the time and the flames spread so rapidly that the inmates made their escape with some difficulty Considering the hour of the night and the muddy condition of the streets, the Fire Department got on the ground in good season and labored zealously and effectively to extinguish the flames Fortunately there were brick blocks with fire-proof walls on each side of the burning buildings, so that notwithstanding the wind lent wings to the flames and swept the sparks and cinders in fiery showers across the street, the progress of the conflagration was speedily stayed

The three buildings burnt were occupied by A F. Philip, as a Boarding House C F Ries as a Cap Store and H Schwarting, as a dwelling and Grocery and Liquor Store Mr Philip lost everything as did Mrs Tiesbach, who with her family occupied the upper part of Ries' store, and Mr Ries himself Several of Mr Philip's boarders also lost clothes furniture, &c. There was no insurance on any of this The two buildings belonged to Schoeder and Hilger, who were uninsured Mr. Schwarting was insured $800 in the North Western on his building and $2000 in the Knickerbocker on his stock The fire was first seen *between* the two smaller buildings and is generally supposed to have been the work of design

### Criminal Statistics--The Late County Officers.

The criminal statistics as published in yesterday's Sentinel, furnished by the recent jailor, exhibits the astonishing fact, that in some cities not far distant, the criminal commitments, and the number of persons committed to the State Prison for *one month* exceed those of Milwaukee for *one year* Among those who have brought the city to this state of peace and quietness are the late Sheriff, the late District Attorney, and the present Police Justice Sheriff Page in retiring from the two years efficient service which he has rendered the people of this County, carried with him to his fireside the good wishes of every lover or order and of every one not associated with crime, and if, as is claimed, the duty of a Sheriff is the protection of the community in which he is chosen, he can claim its perfect fulfilment and that he has left the community safe in their persons and their property and that each and every one can retire to his home and sleep under a feeling of security from midnight plunder and violence"

The late District Attorney Mr Butterfield retired the County six years, three successive terms, and we believe, that he, too returns with the good wishes of all heaped upon him During his last term was the memorable trial of Mary Ann Wheeler for the assassination of John M W Lace, and although in acquittal took place in that case, in which the only excuse claimed was ill treatment of the prisoner—where the act was confessed, altho' not witnessed -where the punishment was foreseen and braved, and no fault found except as to *height of suspension*—where a medical hallucination undermined and overthrew reason and justice—and where, except for the brilliant talents of the prisoner's counsel, conviction must have taken place and justice been satisfied—although an acquittal was the result, the District Attorney established himself beyond doubt to be an able and eloquent prosecutor and to be ardent for conviction, only because satisfied the guilt was there

How long the Police Justice has held that office, we are unable to say, without searching the records but that he has fulfilled its duties without fear or favor, the fact of his having been elected for a number of terms without opposition is sufficient proof and the desire that the Chancellor shall long continue to occupy the Wool Sack is unanimous.

Cleaning the Streets —Just as we expected! A conflict of jurisdiction between the Street Commissioners and the Marshal prevents our streets from being cleaned The former have full power by Sec 3 of chap 7 of the Charter, and the latter has the power by Sec 25 of an ordinance passed July 6 1816 The latter is willing but cannot; the former can, but are not willing So we are left

The Marshal says that if the Common Council will give him authority to employ persons, at the expense of the city to clean the streets, it shall be done forthwith Now, gentlemen of the Common Council, is a chance for immortality

At Last —A neat card in circulation among the shipping houses yesterday informed the numerous friends of Capt. Wm H Cross that that officer on the 1st inst, struck his flag, and made himself as comfortable as could be expected for a captive. We learn that Collector White, among whose manifold duties is that of performing such ceremonies for sea-going folk, united the Captain on that day to Miss S. Republic.

A Wonderful Discovery has recently been made by Dr Curtis, of this city, in the treatment of Consumption, Asthma and all diseases of the lungs We refer to "Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup" With this new method Dr C. has restored many afflicted ones to perfect health, as an evidence of which, he has innumerable certificates Speaking of the treatment a physician remarks —It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medical properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion The Hygeana is for sale at all the druggists throughout the country —New York Dutchman, Jan 14th

CAPITAL, - - - $2,500,000,
*Guarantee Fund, $100 000 Deposited with the Comptroller of the State of New York*

The advantages offered by this Company are many and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible, and Life Insurance, while it in no way interferes with or undervalues these important institutions, has claims which no other system of insurance can have Human existence must on consideration, enjoy a much higher estimate than worldly property

While the representative of a family lives, (unless through neglect to insure his *property*, he becomes bankrupt ) he supports his family, but at his *death* dies also the means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comforts during life

If young, the annual payment will be light and if insured with profits, the policy will be constantly growing more valuable though the *premium* is not increased

Clergymen and others who have a stated and regular income, *should insure*, well knowing that at their death their families may be left destitute,

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure*

The farmer who has still a mortgage on his farm, *should insure*, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death

### NEW THEORY.

Dr A L. Adams believes the proximate cause of all diseases (or as he will have it, all forms of disease,) to be a retention in the system of worn out fluids, &c., which of course should have been expelled But being retained, *excite irritation, or debilitate the system*, causing various affects The Dr says, with much assurance, that his LIVER BALSAM will expel properly and certainly from the system all impurities Therefore he declares it will cure all curable complaints if taken *judiciously* " We will try it.

### Milwaukee & Mississippi Railroad Company.

NOTICE!

IN CONSEQUENCE OF THE REFUSAL OF MERchants and others of this City to pay their freights on Goods which have been shipped via Janesville from Chicago, for the reason, as is alleged by some, that they have not ordered their goods by that route; and by others that they have made special contracts with certain lines to deliver their goods in Milwaukee, therefore refusing to pay any more than their contract price; claiming the right, under the advice of counsel, by making a tender to our Company of the amount so contracted for, to replevin the goods out of our possession.

Therefore, our Company, to protect itself against a repetition of the occurrences above referred to, has given directions to its Agent in Janesville, and the Agents of the Union Road, that it will not receive and forward goods unless an order from the person to whom they are consigned accompanies them. And, in order that there shall be no unnecessary delay or inconvenience arising from said order, this Public Notice is given to all who have goods at Chicago which they wish to receive via Janesville.

### TO THE PHYSICIANS OF THE WEST!
And to All who use Liquor as a Medicine or as a Beverage!

PHYSICIANS who prescribe Alcoholic Liquors for Medicinal purposes should give the preference to WOLFE'S SCHIEDAM AROMATIC SCHNAPPS.

1. It is manufactured in Schiedam, in Holland, and exclusively in the factory of the proprietor, by processes and from materials elsewhere unemployed and unknown.

2. It is proved, by the repeated analysis of several eminent Chemists, to be entirely free from the pernicious fusel oil which remains in every kind of liquor distilled from grain, and which is the cause of the nervous and visceral derangement, serious congestion, and morbid desire for habitual and intemperate indulgence, which such liquors invariably tend to superinduce.

3. It is proved by the same unerring tests that the Juniper Gin is not flavored with the coarse, acrid and indigestible oil of juniper heretofore used, but with the specifically lighter, more volatile, aromatic and medicinal of the two essential oils of the Italian juniper berry, neglected by every other manufacturer.

4. It is chemically proved to be absolutely pure in its composition—a quality obtained by an entirely new process, and which no other Holland Gin in the world has acquired.

5. It is proved by extensive medical experience and testimony, to be an efficient as well as an agreeable remedy in many cases of incipient dropsy, gravel, chronic gout, rheumatism, flatulence, colic, concretions in the kidney, and bladder, dyspepsia, fever and ague, general debility sluggish circulation of the blood, deficient assimilation of food and exhausted vital energy.

6. It is a most grateful and renovating cordial, and when used as directed, never inflames the system or induces inebriety, but tends rather to subdue the latter frailty, by creating a dislike to all inferior liquors. And it invariably corrects the ill effects of bad water, whether in swampy or limestone districts. In all of these enumerated qualities it has no rival in any market in the world.

Since the introduction of this celebrated medicinal beverage into the United States, a number of Liquor Houses in New York and our other large cities have commenced counterfeiting it. The genuine is only sold in quart and pint bottles, handsomely wrapped in yellow paper, with my name on the bottle, cork and label. I would advise those who use it medicinally, to purchase by the bottle, as Bars and Hotels frequently fill my bottles with common Gin and sell it for the genuine. For sale by all the respectable Druggists in the United States.

UDOLPHO WOLFE,
Sole Manufacturer and Importer,
18, 20, and 22, Beaver-st., New York.

The word "Schnapps" belongs exclusively to my article—all others are counterfeit.

The reputation of this preparation is increasing daily; the circle of its influence and unbounded popularity is deepening and widening; and the cases of pain, and suffering, and anguish, relieved by its use, are multiplying and increasing beyond all precedent. It goes like an angel, "with healing on its wings."

To persons who wish, we can furnish names and residences of persons all over the country, who have been cured of Rheumatism, Sprains, Bruises, and the most loathsome Sores, as well as Tumors, Cancers and Wens—and of horses that have been cured of Spavins, Ringbones, Splint, Fistulas and Poll evils, and hard bony Tumors on the feet, legs, shoulders and back. Almost every farmer throughout the country can testify to its wonderful healing powers—and none of them would be a day without it.—Owners of livery stables and stage companies can save hundreds of dollars yearly by using this Liniment on their horses whenever they become galled, chafed or crippled from any of the thousand accidents to which their stock is subject.

See advertisement in another column.

HOLLOWAY'S PILLS, for the cure of Coughs, Colds, and Asthmatical Complaints.—These admirable Pills are the most efficient remedy ever discovered, for the cure of coughs, colds and asthmas. Some of the most obstinate cases of such disorders, together with affections of the chest, yield to their curative powers. They speedily remove any accumulation of phlegm, whereby the respiratory organs are permanently relieved, and ultimately a sound and perfect cure is effected; therefore, the asthmatical patient suffering from a tightness of the chest, a difficulty of breathing, or a bad cough, should have recourse to these well known Pills, to ensure a radical cure.

HOLLOWAY'S OINTMENT AND PILLS are superior remedies for bad legs and all kinds of wounds. The surprising sale of these invaluable medicines throughout the Union, is the most convincing proof of their efficacy in curing bad legs, old wounds, and scrofulous sores. Thousands of people who have suffered from these dreadful maladies have been cured by their use, after every other remedy had failed; and it is a fact beyond all doubt, that there is no case, however obstinate or bad, that may not be shortly cured by these wonderful medicines; therefore the afflicted should immediately try Holloway's Ointment and Pills.

## PIANO FORTE WARE-ROOM!

Where he will keep on hand a good assortment of the celebrated

AMERICAN ACTION PIANO FORTES,

Manufactured by GEORGE HEWS, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist, L. M. GOTTSCHALK, to Mr. Hews, Agent at New York:

New York, Dec. 5, 1853.

Mr. N. J. CURTISS:—

*Dear Sir:* Having had the pleasure of performing upon Geo. Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.

Very Respectfully, L. M. GOTTSCHALK.

From the distinguished Pianist, WILLIAM MASON:

Mr. HEWS:—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte.

WILLIAM MASON.

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

☞ Pianos to Let. Old Pianos taken in exchange, and liberal prices allowed.

☞ Pianos Tuned and Repaired.

### Congressional—River & Harbor Message.

Washington, Jan. 2.

House—Mr. Perkins reported a bill remodelling the consular system of the U. S.

Bill to amend bill graduating the price of public lands was taken up and debated.

A message from the President was received giving reasons for veto of the River and Harbor Bill last session. He says that no such expression as "internal improvements" is found in the Constitution, and it has not sufficient meaning to be of any value. He proceeds to examine the various clauses in that instrument, and comes to the conclusion that no power is given to Congress over them, and that Congress can only construct such works as may be necessary to carry out specific plans for improvements of rivers and harbors necessary for military purposes.

He says that the matter is a subject for Legislative discretion. The message is a long one, and concludes by urging on Congress the policy of confining appropriations by the General Government to works of absolute necessity, and to act from undoubted powers, leaving all others to individual enterprise or the respective states, to be provided for out of their own resources, or by recurrence to the provisions in the constitution which authorize the improvement with the consent of Congress.

The Message was referred to Committee of the Whole, and the House took up the bill for relief of purchasers of Swamp Lands.

Mr. Mayall, of Maine, spoke against the Reciprocity Treaty.

### Evening Despatch.

New York Market of Yesterday.

[REPORTED FOR THE SENTINEL.]

New York, Jan. 3.

Flour—Less doing this morning—market for common grades scarcely so firm—prices however do not show any important variation. Sales 5000 bbls at 9,12½a9,25 for common state; 9,25a9,50 for straight and choice do; 9,50a9,87½ for common to good Ohio, Michigan and Wisconsin; fancy and extras are selling slowly at previous rates. Demand is chiefly for home consumption. Canadian very firm—good common brands 9,50—about 1000 bbls were sold at 9,25 in bond.

Grain—No important change in Wheat—some little inquiry for export, but buyers and sellers are rather wide apart. Millers, in view of the high prices demanded, will not purchase more than sufficient to supply their immediate wants. Sales 3800 bus prime white southern at 2,27½. 1600 bus red southern at 2,05. Rye in fair supply and is going in store—nominal at 1,37. Corn—fair enquiry for export—buyers for home trade are waiting for increased supply—distillers have very reduced stock, yet seem to wait for lower prices. Market shows a slight improvement.—Sales 2900 bus at 1,00a1,02 for western mixed in store; 1,01a1,02 for white and yellow southern afloat and delivered; round yellow held at 1,02. Oats 55a60 for prime and western.

Whiskey—sales 250 bbls at 36@36¼ for Jersey, 36 for Ohio and Prison. Provisions—Pork market easier—sales of small parcels at 12,62 for mess—prime scarce at 12,25—small sales new mess at 14,50, and 14@16 for Western prime mess. Beef less doing—Country mess 8,75@11,25—Country prime 7.

### The Abduction Trials, and Adventures of Payneta Mandeville,

Wife of Augustus H. Mandeville, of Baltimore, who was stolen from her husband at Bogota, New Granada, by a band of *Spanish Robbers*, and by them detained in their mountain fastnesses for thirteen months, there having gone through the most terrible scenes that the imagination can picture; the whole, forming the most truly wonderful narrative of actual occurrences ever yet placed before the reading community. Written by her Husband.—Price 12½ cents.

A THRILLING AND STARTLING WORK!

### The Authentic Confessions of William Masterson,

The Cruel Murderer of his Father and Mother! Together with a complete account of his various Robberies and Murders, including that of Mr. Manning, of Buffalo, N. Y., and the beautiful Miss Emma Martin. Added to which is the history of the most fiendish Murderer, and expert Burglar and Pickpocket, Thomas Little, the accomplice of Masterson. Price 12½ cents.

### The Beautiful Jewess, Rachel Mendoza.

Her lamentable connection with the dark and eventful career of Charles Bernard, otherwise called "Prince Charles," by George Lippard, the late termination of whose adventures in Madrid, near the Palace of the Queen, has created so much comment, and such intense interest in the American press.

Thousands throughout the United States are familiar with *portions* of the career of "Prince Charles," but this narrative sets out in plain colors his *whole* career, especially his connection with the rich and beautiful Jewess, Rachel Mendoza, who only a year mingled in the first circles of New York. After relating his adventures in the United States, this narrative conducts us to Madrid, to the *Royal Court of Spain*, revealing the secrets of the life of Queen Isabella. Price 15 cents.

STARTLING DISCLOSURES! MYSTERIES SOLVED!
OR THE HISTORY OF
ESTHER LIVINGSTONE,

And dark career of Henry Baldwin. By George Lippard. This narrative not only pictures the singular career of Esther Livingstone, and the crimes of Henry Baldwin, but the scenes in which they were actors in the *Mammoth Cave*, are related by the wretched Baldwin, in a bold, truthful, but absorbing style. And the murder of Miss Annie Healy, in Charleston, on the night of her marriage, is in these pages terribly explained. Price 15 cts.

## SPECIAL NOTICES.

### Milwaukee & Mississippi Railroad Company.

NOTICE!

IN CONSEQUENCE OF THE REFUSAL OF MERchants and others of this City to pay their freights on Goods which have been shipped via Janesville from Chicago, for the reason, as is alleged by some, that they have not ordered their goods by that route; and by others that they have made special contracts with certain lines to deliver their goods in Milwaukee, therefore refusing to pay any more than their contract price; claiming the right, under the advice of counsel, by making a tender to our Company of the amount so contracted for, to replevin the goods, out of our possession.

Therefore, our Company, to protect itself against a repetition of the occurrences above referred to, has given directions to its Agents in Janesville, and the Agents of the various Roads, that it will not receive and forward goods unless an order from the person to whom they are consigned accompanies them. And, in order that there shall be no unnecessary delay or inconvenience arising from said order, this Public Notice is given to all who have goods at Chicago which they wish to receive via Janesville.

### TO THE PHYSICIANS OF THE WEST!

**And to All who use Liquor as a Medicine or as a Beverage!**

PHYSICIANS who prescribe Alcoholic Liquors for Medicinal purposes should give the preference to WOLFE'S SCHIEDAM AROMATIC SCHNAPPS.

1. It is manufactured in Schiedam, in Holland, and exclusively in the factory of the proprietor, by processes and from materials elsewhere unemployed and unknown.

2. It is proved, by the repeated analysis of several eminent Chemists, to be entirely free from the pernicious fusel oil which remains in every kind of liquor distilled from grain, and which is the cause of the nervous and visceral derangement, serious congestion, and morbid desire for habitual and intemperate indulgence, which such liquors invariably tend to superinduce.

3. It is proved by the same unerring tests that the Juniper Gin is not flavored with the coarse, acrid and indigestible oil of juniper heretofore used, but with the specifically lighter, more volatile, aromatic and medicinal of the two essential oils of the Italian juniper berry, neglected by every other manufacturer.

4. It is chemically proved to be absolutely pure in its rectification—a quality obtained by an entirely new process, and which no other Holland Gin in the world has acquired.

5. It is proved by extensive medical experience and testimony, to be an efficient as well as an agreeable remedy in many cases of incipient dropsy, gravel, chronic gout, rheumatism, flatulence, colic, concretions in the kidney, and bladder, dyspepsia, fever and ague, general debility, sluggish circulation of the blood, deficient assimilation of food and exhausted vital energy.

6. It is a most grateful and renovating cordial, and when used as directed, never inflames the system or induces inebriety, but tends rather to subdue the latter frailty, by creating a dislike to all inferior liquors. And it invariably corrects the ill effects of bad water, whether in swampy or limestone districts. In all of these enumerated qualities it has no rival in any market in the world.

Since the introduction of this celebrated medicinal beverage into the United States, a number of Liquor Houses in New York and our other large cities have commenced counterfeiting it. The genuine is only sold in quart and pint bottles, handsomely wrapped in yellow paper, with my name on the bottle, cork and label. I would advise those who use it medicinally, to purchase by the bottle, as Bars and Hotels frequently fill my bottles with common Gin and sell it for the genuine. For sale by all the respectable Druggists in the United States.

UDOLPHO WOLFE,
Sole Manufacturer and Importer,
18, 20, and 22, Beaver-st., New York.

The word "Schnapps" belongs exclusively to my article—all others are counterfeit.

### Mexican Mustang Liniment.

The reputation of this preparation is increasing daily; the circle of its influence and unbounded popularity is deepening and widening; and the cases of pain, and suffering, and anguish, relieved by its use, are multiplying and increasing beyond all precedent. It goes like an angel, "with healing on its wings."

To persons who wish, we can furnish names and residences of persons all over the country, who have been cured of Rheumatism, Sprains, Bruises, and the most malignant Sores, as well as Tumors, Cancers and Wens—and of horses that have been cured of Spavins, Ringbones, Splint, Fistulas and Poll evils, and hard bony Tumors on the feet, legs, shoulders and back. Almost every farmer throughout the country can testify to its wonderful healing powers—and none of them would be a day without it.—Owners of livery stables and stage companies can save hundreds of dollars yearly by using this Liniment on their horses whenever they become galled, chafed or crippled from any of the thousand accidents to which their stock is subject.

See advertisement in another column.

HOLLOWAY'S PILLS, for the cure of Coughs, Colds, and Asthmatical Complaints.—These admirable Pills are the most efficient remedy ever discovered, for the cure of coughs, colds and asthmas. Some of the most obstinate cases of such disorders, together with affections of the chest, yield to their curative powers. They speedily remove any accumulation of phlegm, whereby the respiratory organs are permanently relieved, and ultimately a sound and perfect cure is effected; therefore, the asthmatical patient suffering from a tightness of the chest, a difficulty of breathing, or a bad cough, should have recourse to these well known Pills, to ensure a radical cure.

HOLLOWAY'S OINTMENT AND PILLS are superior remedies for bad legs and all kinds of wounds. The surprising sale of these invaluable medicines throughout the Union, is the most convincing proof of their efficacy in curing bad legs, old wounds, and scrofulous sores. Thousands of people who have suffered from these dreadful maladies have been cured by their use, after every other remedy had failed; and it is a fact beyond all doubt, that there is no case, however obstinate or bad, that may not be shortly cured by these wonderful medicines; therefore the afflicted should immediately try Holloway's Ointment and Pills.

### PIANO FORTE WARE-ROOM!

Where he will keep on hand a good assortment of the celebrated

AMERICAN ACTION PIANO FORTES,

Manufactured by GEORGE HEWS, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist, L. M. GOTTSCHALK, to Mr HEWS, Agent at New York:

NEW YORK, Dec. 5, 1853.

MR. N. J. CURTISS:—

*Dear Sir:* Having had the pleasure of performing upon Geo. Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.

Very Respectfully, L. M. GOTTSCHALK.

From the distinguished Pianist, WILLIAM MASON:

MR. HEWS:—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte.

WILLIAM MASON.

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

☞ Pianos to Let. Old Pianos taken in exchange, and liberal prices allowed.

☞ Pianos Tuned and Repaired.

### Congressional—River & Harbor Message.

Washington, Jan. 2.

HOUSE—Mr. Perkins reported a bill remodelling the consular system of the U. S.

Bill to amend bill graduating the price of public lands was taken up and debated.

A message from the President was received giving reasons for veto of the River and Harbor Bill last session. He says that no such expression as "internal improvements" is found in the Constitution, and it has not sufficient meaning to be of any value. He proceeds to examine the various clauses in that instrument, and comes to the conclusion that no power is given to Congress over them, and that Congress can only construct such works as may be necessary to carry out specific plans for improvements of rivers and harbors necessary for military purposes.

He says that the matter is a subject for Legislative discretion. The message is a long one, and concludes by urging on Congress the policy of confining appropriations by the General Government to works of absolute necessity, and to act from undoubted powers, leaving all others to individual enterprise or the respective states, to be provided, for out of their own resources, or by recurrence to the provisions in the constitution which authorize the improvement with the consent of Congress.

The Message was referred to Committee of the Whole, and the House took up the bill for relief of purchasers of Swamp Lands.

Mr. Mayall, of Maine, spoke against the Reciprocity Treaty.

### Evening Despatch.

**New York Market of Yesterday.**

[REPORTED FOR THE SENTINEL.]

New York, Jan. 3.

Flour—Less doing this morning—market for common grades scarcely so firm—prices however do not show any important variation. Sales 5000 bbls at 9,12½a9,25 for common state; 9,25a9,50 for straight and choice do; 9,50a9,87½ for common to good Ohio, Michigan and Wisconsin; fancy and extras are selling slowly at previous rates. Demand is chiefly for home consumption. Canadian very firm—good common brands 9,50—about 1000 bbls were sold at 9,25 in bond.

Grain—No important change in Wheat—some little inquiry for export, but buyers and sellers are rather wide apart. Millers, in view of the high prices demanded, will not purchase more than sufficient to supply their immediate wants. Sales 3800 bus prime white southern at 2,27½, 1600 bus red southern at 2,05. Rye in fair supply and is going in store—nominal at 1,37. Corn—fair enquiry for export—buyers for home trade are waiting for increased supply—distillers have very reduced stock, yet seem to wait for lower prices. Market shows a slight improvement.—Sales 2900 bus at 1,00a1,02 for western mixed in store; 1,01a1,02 for white and yellow southern afloat and delivered; round yellow held at 1,02. Oats 55a60 for prime and western.

Whiskey—sales 250 bbls at 36@36¼ for Jersey, 36 for Ohio and Prison. Provisions—Pork market easier—sales of small parcels at 12,62 for mess—prime scarce at 12,25—small sales new mess at 14,50, and 14@16 for Western prime mess. Beef less doing—Country mess 8,75@11,25—Country prime 7.

### CHEAP BOOKS.

EXTRAORDINARY INDUCEMENTS
TO
**The Reading Public.**

*Either of the following five works will be sent free of postage, on receipt of the price annexed.*

**The Abduction Trials, and Adventures of Payneta Mandeville,**

Wife of Augustus H. Mandeville, of Baltimore, who was stolen from her husband at Bogota, New Grenada, by a band of *Spanish Robbers*, and by them detained in their mountain fastnesses for thirteen months, there having gone through the most terrible scenes that the imagination can picture; the whole, forming the most truly wonderful narrative of actual occurrences ever yet placed before the reading community. Written by her Husband.—Price 12½ cents.

A THRILLING AND STARTLING WORK!

**The Authentic Confessions of William Masterson,**

The Cruel Murderer of his Father and Mother! Together with a complete account of his various Robberies and Murders, including that of Mr. Manning, of Buffalo, N. Y., and the beautiful Miss Emma Martin. Added to which is the history of the most fiendish Murderer, and expert Burglar and Pickpocket, Thomas Little, the accomplice of Masterson. Price 12½ cents.

**The Beautiful Jewess, Rachel Mendoza.**

Her lamentable connection with the dark and eventful career of Charles Bernard, otherwise called "Prince Charles," by George Lippard, the late termination of whose adventures in Madrid, near the Palace of the Queen, has created so much comment, and such intense interest in the American press.

Thousands throughout the United States are familiar with *portions* of the career of "Prince Charles," but this narrative sets out in plain colors his *whole* career, especially his connection with the rich and beautiful Jewess, Rachel Mendoza, who only a year mingled in the first circles of New York. After relating his adventures in the United States, this narrative conducts us to Madrid, to the *Royal Court of Spain*, revealing the secrets of the life of Queen Isabella. Price 15 cents.

STARTLING DISCLOSURES! MYSTERIES SOLVED!
OR THE HISTORY OF
**ESTHER LIVINGSTONE,**

And dark career of Henry Baldwin. By George Lippard. This narrative not only pictures the singular career of Esther Livingstone, and the crimes of Henry Baldwin, but the scenes in which they were actors in the *Mammoth Cave*, are related by the wretched Baldwin, in a bold, truthful, but absorbing style. And the murder of Miss Annie Henly, in Charleston, on the night of her marriage, is in these pages terribly explained. Price 15 cts.

*The Rival's Revenge! or The Lovely Quakeress,*
**CATHARINE MIDDLETON,**

The Skillful Gamester in Disguise. Her singular career with the startling developments in the life of Don Senor Jacinto, "The Maniac Priest." Price 12½ cents.

TERMS.—The above Five Thrilling and Interesting Volumes will be sent to any address in the United States and Canadas free of postage, on the receipt of 50 cents.—Postmasters or others, remitting two dollars, the above five books will be sent to five persons, free of postage; or on the receipt of five dollars they will be sent to fifteen persons. Read the following from Messrs A McClure & Co, wholesale and extensive dealers in Drugs, Medicines &c

ALBANY, July 27, 1853

This is to certify that on the 23d day of July, 1852, our entire Stock, composed of Turpentine Alcohol, Oil, Patent Medicines, &c, was consumed by fire, so rapid and severe was the fire that we were unable to close one safe until Mr Pohlman subsequently entered at the peril of his life and closed the doors

After forcing the safe open after all this exposure and fire, which made us so careful for the safety of its contents, its valuables were found uninjured

We have so much confidence in the security of the Fire King, that we shall have it immediately replaced

## PATENT MEDICINES

## MEDICATED INHALATION

### A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr CURTIS for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation Dr CURTIS'S HYGEANA or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the City of New York and vicinity for a few months past ever known to man—It is producing an impression on the diseases of the Lungs never before witnessed by the medical profession [See certificates in hands of Agents]

The Inhaler is worn on the breast, under the linen without the least inconvenience the heat of the body being sufficient to evaporate the fluid,—supplying the lungs constantly with a healing and agreeable vapor, passing it to all the air cells and passages of the lungs that cannot possibly be reached by any other medicine Here is a case of

### ASTHMA CURED.

BROOKLYN, N Y, Dec 26th, 1853

For about eight years I have been severely afflicted with the Asthma, for the last two years I have suffered beyond all my powers of description, months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing and had a comfortable night I have since continued it with the greatest possible benefit, and am now comparatively well God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is TRY IT

### CONSUMPTION CURED.

NEW YORK, Dec 27th 1853

I came to New York in the ship Telegraph, my native place is St John, New Brunswick, when I reached this city, my health was very poor had a very bad cough, raised a great deal of matter which was frequently mixed with blood, had pain in my left side, and was very weak and emaciated My friends and physician pronounced my case Consumption, and beyond the reach of medicine I accidentally heard of Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life—Soon after wearing the Inhaler, I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured, I still wear the Inhaler, as the use of it is rather pleasant and believing it strengthens and purifying to the lungs, I feel unwilling at present to dispense with it JOHN WOOD

Sold by BOYD & PAUL No 40 Cortlandt street, C H RING, corner of John street and Broadway N Y Price $3 a package

### HYGEN & OXYGENIC VAPOR!

DR TRIST Graduate of the Royal College of Surgeons in London, and the recipient of diplomas from the *Lung Institution of Edinburg*, and *Hotel de Invalides of Paris* having settled permanently in New York for the practice of his profession begs leave to suggest to the citizens of the United States that several years of study and *successful experience* in England and Scotland as well as other parts of Europe, with *Consumption in all its forms*, enable him to warrant not only relief, but a complete cure to all those suffering with this great national disease

Dr TRIST deems it unprofessional to advertise, but others having represented themselves as the originators of the Inhalation Treatment, he would say to the afflicted that he alone is entitled to its first introduction and would caution all against using the useless and dangerous compounds advertised by incompetent persons

"*Take up thy bed and walk*"

Dr TRIST would say to those interested that he has had manufactured for the use of his patients "*Trist's Patent Inhaling Tubes*," through which the vapor is conveyed to the parts affected, and which he earnestly recommends for the cheering results which have attended their use and the *fact* that they may be used by the most feeble in valid without any unpleasant symptoms

To those residing out of the city Dr Trist will forward one of the Inhaling Tubes together with a package of the Vapor, sufficient to last for three months accompanied with ample directions for use on receipt of a letter containing Ten Dollars, and the will give prompt attention

A cure is warranted in all stages of *Consumption Bronchitis Asthma* and all other *affections of the Throat, Lungs* and Air Passages In case of failure the money will be returned

ALBANY, July 27, 1852

This is to certify that on the 23d day of July, 1852, our entire Stock, composed of Turpentine Alcohol, Oil, Pat ent Medicines, &c, was consumed by fire, so rapid and se vere was the fire that we were unable to close one safe until Mr Pohlman subsequently entered at the peril of his life and closed the doors

We have so much confidence in the security of the Fire King, that we shall have it immediately replaced

## PATENT MEDICINES.

### MEXICAN MUSTANG LINIMENT

THIS EXTRAORDINARY MEDICINE IS STILL working wonders throughout the World—eradicating ev erything in the form of disease that comes within the circle of its influence

The People Themselves

have long since adopted it as the only external remedy they could rely upon and the indisputable testimony of thousands is fast sweeping away

The Prejudices of the Faculty.

It is extensively used by the Ladies,

It is used by Mechanics and Laboring men,

It is used in families and factories,

It is used expressly by all Express Companies

It is used by Farmers and Livery stable keepers,

It is used by everybody, and all speak in its praise,

Where it is used pain cannot exist,

The benumbed limbs are made elastic

The deep ulcers and frightful sores are healed,

The unstrung nerves are made to vibrate with joy!

Use the Mustang Liniment.

at the spontaneous advice of all

It has cured more cases of

Rheumatism

than any other medicine ever used its efficacy in this terrible disease is acknowledged by all who have used it It not only cures the complaint, but appears to give vigor and elasticity to the limbs, before unknown—thus per forming a double office

For contractions of the limbs, stiffness of the joints and muscles hard lumps, swellings and inflammation, it is un rivalled in the power and efficacy of its operations

For Bruises, Sprains, Cuts, Scalds and Burns, but a few applications are necessary in order to effect a total cure

Cancer, or Scrofulous Sores, Tetter, Ringworms, Salt Rheum, Scurvy, Erysipelas, Boils, and Erup tions,

can generally be removed in a few days—and the worst cases can be cured in a few weeks at the farthest Per sons afflicted with these diseases, should be careful in getting the right article to cure them

Use it upon Your Horses,

for spavin splint, ring bone, fistula wind galls, big heads, bruises strains string halt scratches, cracked heels, swe ney, saddle, collar, or harness galls hard lumps, tumors and other diseases of the eye poll evil &c

The finest horses in the city of New York will be found in the stables of the various Express Companies—and they all use

The Mustang Liniment,

totally discarding any other preparations of the kind, and have all given their certificates in its favor

This we presume will be a sufficient guarantee to in duce every one who owns a horse, to give the Mustang a trial

THERE is no Druggist or Country Store [illegible]

Who pretends to keep medicine at all

But what keeps a constant supply of the

Mexican Mustang Liniment.

The small size retail for 25 cents per bottle,

The medium sized retail for 50 cents per bottle,

The large sized retail for one dollar per bottle,

The medium hold three times as much as the small

The large holds nearly three times as much as the me dium,

Therefore the largest bottles are the cheapest

## PATENT MEDICINES

### MEDICATED INHALATION

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr CURTIS for the cure of Asthma, Con sumption, Bronchitis, Coughs, Colds, and all Lung Com plaints, by Medicated Inhalation Dr CURTIS'S HY GEANA or INHALING HYGEAN VAPOR and CHER RY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the City of New York and vicinity for a few months past ever known to man — It is producing an impression on the Diseases of the Lungs never before witnessed by the medical profession [See certificates in hands of Agents]

The Inhaler is worn on the breast, under the linen with out the least inconvenience the heat of the body being suf ficient to evaporate the fluid,—supplying the lungs con stantly with a healing and agreeable vapor, passing into all the air cells and passages of the lungs that cannot possibly be reached by any other medicine Here is a case of

ASTHMA CURED.

BROOKLYN, N Y, Dec 28th, 1853

For about eight years I have been severely afflicted with the Asthma, for the last two years I have suffered beyond all my powers of description, months at a time I have not been able to sleep in a bed, getting what rest I could sit ting in my chair My difficulty of breathing, and my suf ferings, were so great at times, that for hours together my friends expected each hour would be my last During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr Curtis's Hygeana or Inha ling Hygean Vapor and Cherry Syrup At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath In less than ten minutes from the time I ap plied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is —TRY IT

CONSUMPTION CURED.

NEW YORK, Dec 27th, 1853

I came to New York in the ship Telegraph, my native place is St John, New Brunswick, when I reached this city, my health was very poor had a very bad cough, rais ed a great deal of matter which was frequently mixed with blood, had pain in my left side, and was very weak and emaciated My friends and physician pronounced my case Consumption, and beyond the reach of medicine I acci dentally heard of Dr Curtis's Hygeana, or Inhaling Hy gean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life — Soon after wearing the Inhaler, I found it relieved the pres sure on my lungs, and after a while the disease made its ap pearance upon the surface under the Inhaler I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured, I still wear the Inhaler, as the use of it is rather pleasant and believing it strengthen ing and purifying to the lungs, I feel unwilling at present to dispense with it JOHN WOOD
